Title:

NotMyLaw protest action in the cage

Description (EN):

In the run-up to the Federal Cabinet's decision on the Federal Participation Act on June 28, a broad alliance of disability associations is demanding that the new law must not bring any deterioration for disabled people and must make a decisive contribution to the implementation of the United Nations Convention on the Rights of Persons with Disabilities. The currently ongoing protests of disabled people under the motto #NotMyLaw (#NichtMeinGesetz) against the submitted draft bill for the Federal Participation Act will be continued and culminate on June 28 at 10:00 in a symbolic "cage action" on Washington Square in front of Berlin's main train station.
